

FASHION, FIXED

AN ETHICAL SHOPPING GUIDE

FAST FASHION IS OUT

♀ 75 million people work to make our clothes, 80% of them are women between the ages of 18 and 24.

✋ 100 pairs of human hands touch our clothes before we see it in stores or online.

\$ It takes a garment worker 18 months to earn what a fashion brand CEO makes on their lunch break. Many of them earn less than \$3 per day.

🗑️ 13 trillion tons of textiles are sent to US landfills annually! Most clothes sit in landfills for 200 years leaving toxic chemicals to contaminate soil and groundwater.

👕 It takes 2720 liters of water to make a t-shirt- that's how much we normally drink in 3 years.

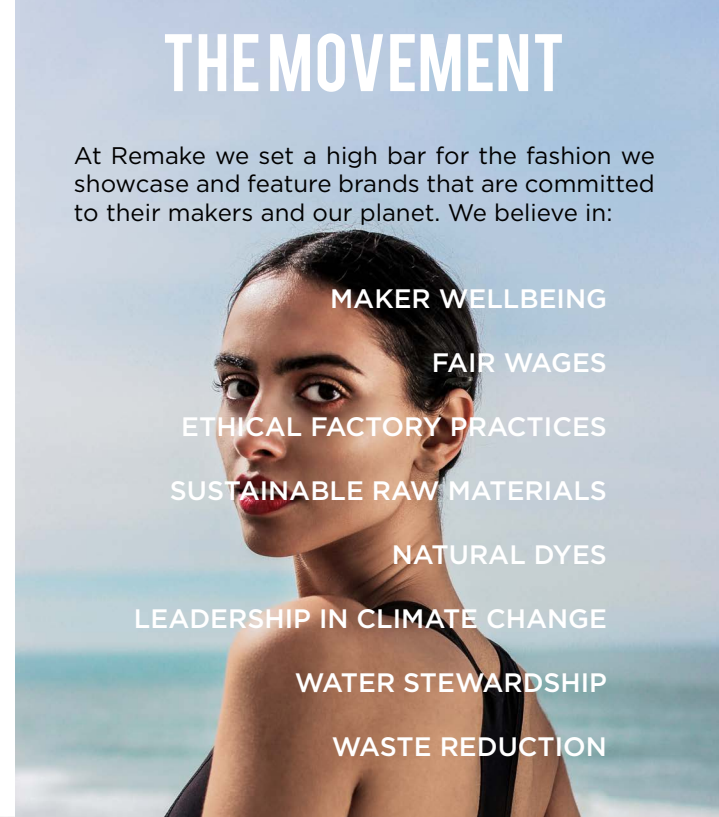

Bargain prices hurt people and our planet. Vote with your dollars to say no to irresponsible brands:

AMERICAN APPAREL **ASOS** BEBE **EXPRESS** FOREVER 21 **GUESS** H&M **MANGO** PRIMARK **TOPSHOP** URBAN OUTFITTERS **VICTORIA'S SECRET** ZARA
